

## INFORMATION AND INSTRUCTIONS

This introductory page provides you with some basic explanatory information about the **simplified easySHARE application procedure** and gives brief instructions on how to complete the Statement concerning the use of easySHARE data for teaching purposes (hereinafter referred to as "easySHARE Teacher Statement"), which you will find on page 2 of this document.

For more information on how to apply for access to the SHARE data and to register as a SHARE user please visit the "[User Registration](#)" section of our website.

### What is the simplified easySHARE application procedure?

This application procedure addresses SHARE users who want to use the easySHARE data for teaching purposes. It does not replace regular user registration but provides a convenient way of registering several course participants as regular SHARE users at the same time.

Furthermore, it offers course instructors ('teachers') the opportunity to directly provide participants of their course/s ('students') with the data and make copies of the data set available to them. I.e., teachers are granted the right to distribute the easySHARE data to their students by means of an exception to the prohibition of disclosure.

*Please note: For scientific publications it is recommended to use the main distribution of SHARE. If easySHARE is used for scientific analyses and publication please carefully study the documentation and the Stata program that extracts and generates easySHARE from the main distribution of SHARE.*

### Who can make use of this simplified application procedure?

All registered SHARE users with a scientific affiliation who aim to use easySHARE for teaching purposes can make use of the simplified application procedure.

### How to make use of the simplified application procedure?

1. Read the relevant parts of the [SHARE Conditions of Use](#) carefully (details on page 2).
2. a) Fill out and sign the easySHARE Teacher Statement (provided on page 2).

*Please attach a list with the students' names and email addresses (cf. page 3). This will substantially simplify and speed up the processing of your request.*

- b) Instruct all first-time SHARE users participating in the course/s to fill out and sign the [SHARE User Statement](#) (available on the SHARE project's website), collect the statements and provide the SHARE Research Data Center with these statements within 14 days after the submission of the easySHARE Teacher Statement.
3. Send all documents via email or mail to the SHARE Research Data Center. Contact details are provided at the end of the easySHARE Teacher Statement (see next page).

### How will applicants know if an application was successful?

After submission of the application, it will be processed at the SHARE Research Data Center and an answer will be provided via email (normally within a few working days). Upon acceptance of the credentials, the teacher may make use of the exception to the general prohibition of disclosure and distribute the easySHARE data to the students participating in his/her course/s.

The students who are first-time SHARE users will be registered individually after receipt of their SHARE User Statements provided by the teacher.

## STATEMENT CONCERNING THE USE OF **easySHARE** DATA FOR **TEACHING PURPOSES**

All teachers who want to make use of the simplified easySHARE application procedure can apply by completing the following form.

*Please note: This application does not replace the regular user registration. Registration as SHARE user is a necessary prerequisite to make use of the procedure.*
